

MOT Testing

Your motorcycle will first need a MOT Test when it is 3 years old, and every 12 months thereafter.

It is a straightforward examination to see if it is roadworthy which has been designed and is overseen by VOSA (Vehicle & Operator Services Agency).

www.vosa.gov.uk/

Motorcycle dealers and their technicians have to be approved by VOSA and are subject to continual inspection and assessment.

Both our branches in Yeovil and Gloucester are approved to carry out MOT Testing on mopeds, scooters, solo motorcycles and motorcycles fitted with a sidecar.

HOW MUCH WILL IT COST?

The cost of the MOT Test is set by Government and is currently:-

[Mopeds, scooters, solo motorcycles](#) £29.20

[Motorcycle & sidecar](#) £37.20

Retests

In certain circumstances if your motorcycle fails the test initially we can carry out a [Free Retest](#), otherwise you may have the option of a [Partial Retest \(half the full fee\)](#) or a [Full Retest \(full fee\)](#). Please refer to the VOSA website or ring for details.

Duplicate

Our fee for a Duplicate Paper Certificate is £10.

WHEN CAN WE DO IT?

We operate a booking system for MOT Testing and can usually fit one in for you at short notice, sometimes even on the same day. [Go to the "Workshop" page of our website for contact details or to send an email enquiry and we will contact you.](#)
